

# SF Int'l Animation Festival

**November 11–14, 2010**

**Landmark's Embarcadero Center Cinema**

The San Francisco International Animation Festival celebrates the region's preeminence as a hub for one of the most creative forms in cinema. Join us for an enticing mix of the latest FX-based features, anime, family-friendly cartoons and wonderfully unclassifiable shorts from around the world, and a fabulous Opening Night party. This year's festival includes Hayao Miyazaki protégé Sunao Katabuchi's **Mai Mai Miracle**, the Decemberists-inspired **Here Come the Waves: The Hazards of Love Visualized**, six wildly diverse shorts programs and a live animation and musical performance by artist duo Semiconductor.
