DEBUT: EPSTEIN, "OLD TIME STARS" Video by Santa Maria

Epstein is one of Roberto Lange's myriad monikers along with Helado Negro, ROM, and a member of Savath & Savalas. This Epstein track, "Old Time Stars" glides woozily through a two-minute guitar chatter and a shimmering beat, the whole structure crystallized in delay.

The accompanying video is a spot-on visual adaptation, with vivid renderings of symmetry and the edges of chaos in quotidian imagery from the city to the suburbs.

The track is off *Sealess See* on Asthmatic Kitty, out now.
